JACKS FOR WELL BORING SECTION.

DEAR SIR/GENTLEMEN,

Please be good enough to intimate your best prices and the earliest time of delivery for the materials described in the undermentioned schedule, in the form printed below.

It should be distinctly understood that the acceptance by us of your quotation will be subject to the following conditions :—

Withdrawal from the quotation after it is accepted or failure to make the supply within the specified time or according to specifications will entail cancellations of the order and purchases being made at your expense from other sources in addition to the levy of a penalty of 3 per cent of the value of the order as and by way of liquidated damages. In such an event, the Stores Purchase Committee reserve the right to remove your name from the list of approved firms.

The quotations should be superscribed "Quotations for Jacks," with the above enquiry number.

This enquiry will be closed on the 26th July 1937.

S. P. C. No. 1673, *dated* 19*th July* 1937.

To

The Firms dealing in Tower Clocks.

Enquiry No. 2390.

TOWER CLOCK REQUIRED FOR THE TOWER OF THE TECHNOLOGICAL INSTITUTE, BANGALORE.

GENTLEMEN,

Please quote your best price for a Clock conforming to the attached specification. A sketch showing the elevation of the Tower where the clock has to be installed is enclosed.

The price quoted should include the cost of the clock delivered at site in Bangalore and erected. Cost of erection should be shown separately.

The working of the clock should be guaranteed in writing for at least a period of 5 years from the date of completion of erection and putting into satisfactory working order. Should any defects be noticed during the period of guarantee, the same should be set right free of cost to Government.

Failure to complete delivery and erection of the clock within the time to be stipulated in the order, will entail cancellation of the order and purchase of an equally suitable clock from other sources at your entire risk and expense, the extra that may have to be incurred thereby being recovered from you in addition to the levy of a penalty of 3 per cent of the value of the order as and by way of liquidated damages.

Your quotation should be sent in sealed cover superscribed "Quotation for Tower Clock for the Technological Institute, Bangalore" and it should reach this office on or before the 15th of August 1937.

SPECIFICATIONS FOR INSTALLING 8′-0″ SQUARE DIAL CLOCK IN THE TOWER OF THE TECHNOLOGICAL INSTITUTE BUILDING AT BANGALORE.

The installation shall comprise the following :—

(1) One super quality transmitter Electric Clock of pleasing but substantial design with mechanism, accumulator (with charger) and escapement, etc., of up-to-date type (all to be specified by the tenderer) manufactured by well known makers (English, German or Swiss to be specified) with ringing machanism, contacts, inner dials, automatic electric winding, lighting mechanism, and vertical bevel gear to over-head distributor complete, the whole being in a teakwood case with glazed windows for inspection and adjustment.

(2) The accumulator or battery to work the main clock should be of non-sulphating type and with a suitable charger to suit the local A. C. current of 220 volts 60 cycles and of sufficient capacity to have a reserve power to run the clock for a period of at least 30 hours in case of failure of electric supply.

(3) Four sets of hands of non-corrodiable metal with under dial gears, motion work or controlling mechanism running in oil baths if possible to be fixed behind the four stone slab dials (supplied by the Public Works Department) with a hand setting device and indicating dial if necessary inside the tower. The motion work to be fitted with automatic switch for flood lighting the dial at night.

(4) The minute hand should be 3′-10″ long from centre on one side and about 5″ long beyond the centre on the other, total length being 4′–3″ and the hour hand 2′–8″×5″ and of modern design as per sketch shown in the elevation of tower (furnished to the tenderers). The thickness of the stone slab dial is 4″ and the distance from the slab to centre of tower is 12′. There is a hole 2″ diameter in the centre of slab for fitting the hands.

(5) The hands should be of well balanced type stiffened and fixed to phospher bronze or steel tube working on gun metal bushes. The hands should be so designed as to be capable of being fitted with glow or neon lights later on if required with necessary extra counter weight.

(6) Motion work or gearing should be fitted with gun metal wheels of large diameter to avoid back lash mounted on steel or phosphor bronze tubes working on ball bearings protected from dust and water and suitable for grease gun lubrication or other simple method of lubrication.

(7) There should be an observatory control equipment designed for time-signal work to automatically regulate main clock at least once a day for Indian standard time.

(8) Ringing mechanism should have an independent motor drive connected directly with the main A. C. electrical supply, if possible, and a suitable striking gear and mechanism of latest design to strike hours only. A steel or bell-metal bell weighing about 12 cwts. will be supplied by the Public Works Department. The quotation should include head stock and hammer or clapper fittings to suit the bell.

(9) The controlling mechanism or waiting train movement behind the four dials should be of sturdy design enclosed in a suitable dust-proof case with motion work suitable for running by impulses from main clock and with mechanism for free movement of hands without jerks and without any strain due to internal gearing or external pressure by wind, rain, hail storm, etc.

(10) The quotation should include the cost of supplying and erecting in position the whole mechanism, etc., as per above specifications together with all internal wiring in the tower and main switch board near the entrance to the tower together with safety device to give warning in good time in case of failure in the clock mechanism or electric system.

No. S. P. C. 1360-84, *dated* 17*th July* 1937.

To

The Firms dealing in Electric Lamps.

Enquiry No. 2391.

FESTOON LAMPS AND LAMP HOLDERS THEREFOR.

GENTLEMEN,

I write to request you to quote your best prices and earliest time of delivery for the following materials, conforming to the specifications given below:—

Item (1) 5,000—High heat compound, keyless pendant, lamp holders, with 6" lamp leads, without shade holder groove and with medium screw base. Cat. No. 43310.

Item (2) 20,000—Plain screw socket lamps, pear shaped, 220-volts, 20 watts, suitable for standard edison screw base and for use with lamp holders of Item 1. Every lamp should be etched with the letters "G.O.M.E.D."

The lamps should conform to the latest British Standard Specifications and should be guaranteed to burn for at least 1,000 hours each. If the average life of the lamps supplied should fall below this limit, the cost of the lamps will be subject to a reduction corresponding to the number of hours by which they fall below the guaranteed limit.

The tenders should include the following particulars:—

(*a*) Actual wattage consumed,
(*b*) Total initial lumens,
(*c*) Lumen efficiency,
(*d*) Guaranteed lumens per watt throughout life.

The prices to be quoted should be for delivery f.o.r., Mysore and should include the cost of etching each lamp with the letters "G.O.M.E.D."

As the lamps are required for the illumination of the Mysore Palace, they are exempt from customs duty. The f.o.r., prices to be quoted should therefore be exclusive of charges on account of customs duty.

Quotations for articles of German manufacture should be on the basis of payment in Reich-Marks from out of the Mysore Government Balance at the Reich-Kredit-Gesselschaft, Berlin.

This enquiry will close on the 30th July 1937.

Only quotations for delivery of the materials before the 15th of September 1937 at Mysore will be considered. Whether or not you can comply with the condition should be clearly specified.

No. S. P. C. 1613-20, *dated* 19*th July* 1937.

To

The Firms dealing in G. I. Wires.

Enquiry No. 2395.

G. I. WIRE 14 GAUGE.

GENTLEMEN,

5,000 pieces of G. I. wire 14 gauge, in pieces of 10 ft. each will be required for use on Garrard Wire Tying Machine. Please quote your best price f. o. r., Bangalore City for this wire together with information as to when the entire quantity could be delivered in Bangalore.

Samples of wire offered should also accompany your quotation.
This enquiry will be closed on the 5th of August 1937.

Yours faithfully,
T. RANGASWAMI,
Secretary,
Stores Purchase Committee.

No. S. P. C. 1385-95, *dated* 16*th July* 1937.

NOTICE.

Enquiry No. 2383.

Sealed tenders will be received by the Secretary, Stores Purchase Committee, for the supply of Printing Inks, Calico and other Miscellaneous articles required for the Mysore Government Presses, during the year 1937-38 up to 5 P.M. on 4th August 1937.

Intending tenderers may, on application to the Secretary, Stores Purchase Committee, obtain the requisite tender forms on which tenders should be submitted. Applications should be accompanied by a cash remittance of rupees two only which is the price fixed for a set of forms and which is not refundable.

Cheques and postage stamps will not be accepted towards the cost of forms nor will the forms be sent by V. P. P.

By Order,
T. RANGASWAMI,
Secretary,
Stores Purchase Committee.

VANI VILAS INSTITUTE, BANGALORE.
